**BLACK EDITION® V** - Engine components are electrostatic powder coated for maximum corrosion resistance and thermal efficiency. Improved cylinder air flow & volumetric efficiency. Rotational masses and combustion chambers are precision balanced. Valve train geometry improved for better power. Full domain vibration spectrum analysis for smoother operation. Improved limited engine warranty.

**LIMITED EDITION VI** - Includes all Black Edition V processes plus cryogenic processing for increased parts performance, vibratory stress relieved for improved longevity, shot peened for increased durability, acoustic resonance tested for improved performance and extended limited warranty.

**XR BLACK EDITION® VII** – Includes all Limited Edition VI processes plus isotropic parts finishing for reduced friction, multiple angle valve seating for improved fuel efficiency, air flow optimized, cylinders c.c. matched for maximum power, harsh environment protection and ceramic coated, textured matte black thermo emissive powder coated finish.
